

## HOW TO MAKE A FABRIC CHERRY BLOSSOM

Cut a 4inch x 4inch template from card.

Cut 5 or more squares from cotton or a clean pillowcase/ bedsheet

Fold the square in half then in half again to make a folded square.

Fold the square to make a triangle.

Trim the edges of the triangle in a wavy pattern. (Use pinking shears if you have them).

Round off any edges so your square becomes more circular

Apply hot Glue and Fold your circle (or pop a stitch in if you prefer to sew).

Use one circle as your base and glue or sew at least four circles on to make your cherry blossom.

Fold some wool and stitch or glue to the centre to create a stamen!
